

# GaitUp+

make sense of motion

## PhysiGait Live

Instant and accurate gait analysis for routine assessment

### FEATURES

- ✓ 26 outcome parameters in PDF
- ✓ Easy to use mobile App
- ✓ Automatic sensor alignment and calibration
- ✓ Validated accuracy against gold standards

### KEY BENEFITS

- ✓ Bring the lab accuracy anywhere
- ✓ Measure and get results in a minute
- ✓ Discuss quantitative outcomes with your patients
- ✓ 400+ scientific publications

*“We measure 10 to 12 patients per day with Gait Up reliable measures, to identify who is at risk of falling”*

**Prof. Büla**  
Head of Geriatrics (CHUV)

*“We use Gait Up for teaching purposes and in clinical research protocols. It allows us to easily measure gait outside of the lab.”*

**L. Allet,**  
PhD, Physiotherapist (HUG)

# APPLICATIONS

## Geriatrics

- ✓ Measurement of Timed Up and Go
- ✓ Objective screening of frail people
- ✓ Evaluation of fall risk
- ✓ Standardisation of gait observation

## Physical Medicine

- ✓ Pre/post rehabilitation comparison
- ✓ Detection of pathological gait
- ✓ Monitoring and valorisation of therapy
- ✓ Patient motivation engagement

Simple

Accurate

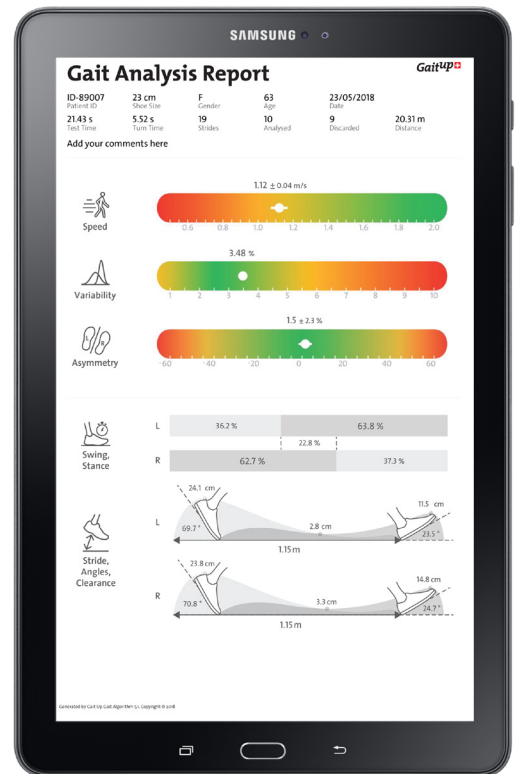

Versatile

# PACKAGE

## Application for Android tablet (designed for routine)

- › Generate standard reports (.pdf)
- › Generate left/right foot comparison reports
- › Requires WiFi or 3G/4G data connection

2x Physilog® 5 motion sensors worn on both feet

DEVELOPED IN COLLABORATION WITH
